MASSACHUSETTS PISTOL LEAGUE

It is impractical to try to score all targets and tabulate them in such time as required one of your officers to stay all night on the job for the open shoot ratings.

Targets must be scored on the frames and more time given for the Open Shoot. Several errors crept into both computations and cutting of master sheets for scores of the last match.

In slow fire individual rating, this correction stands: Curran 176.8, Vallancourt 176.6, Bethune 174.8, Boudreau 174.6.

In national match scores:- Under N. R. A., Dr. Croissant's score is 263 and outranked by Smith on rapid. Correct team score is 1080 and team total 5583. Medal awards as indicated.

Under Braintree Faustini's score makes 251 against Nicholson's 250. Team total is 1057 and 5310 for the season, giving Braintree second place vice Sattucket 1.

Under Beverly, Clark's score is 259 with a team total of 1046.

Under Mystic 2, D'Elia's rapid was 63, a total of 206 but team total as before.

Medal awards: for the second team, are due Vallancourt, Naylor, Nicholson and March. For high man in Sattucket 1, Northcott.

These changes make for minor ones in individual rating, but will not affect the other teams or high marksmen.

Sorry!

State Rifle and Revolver Association of Massachusetts

The third meeting of delegates from rifle and revolver clubs will be held in the western part of the state, in order to give clubs there a chance to help in forming a strong state organization. There are several clubs not affiliated with the N. R. A. which have not learned of the previous meetings nor of the work done on a constitution. Those interested may write E. F. Bridgman, 76 Commonwealth St., Springfield, for notices of further meetings and copies of the tentative constitution. There are roughly about 150 clubs and about 40,000 shooters in Massachusetts. It's about time we got organized without some of the failings of previous attempts.
